Stats&Maths Bachelor Degree, full English course
- 2014– 2019** **Luigi Galvani Highschool**
Brocca Scientific International Studies
-

BUSINESS EXPERIENCE

- 2021 - 2022** **AgBlox Inc, San Francisco, California, USA**
Artificial Intelligence Startup
Consultant
- Successfully oversaw a team of four interns. This taught me how to properly motivate and work with them, resulting in a 23% increase in the amount of data fed to a knowledge graph on cryptocurrencies, their teams and investors.
 - Built a Python program that correlates stock price fluctuations of S&P 500 companies with their queries on Google, to help colleagues make data-driven investment decisions.
 - Researched and advised on 120 cryptocurrencies that would be suitable for implementing an AI business product, providing valuable insights and recommendations to the company.
- 2022 - 2022** **Neffet, Milan, Italy**
Web3 Solutions Startup
Associate
- Increased Twitter engagement by 28% by introducing the company to the Ethereum Name Service (ENS) infrastructure, which enabled us to link our website domain to our NFT portfolio, ensuring provenance and enhancing credibility.
 - Evaluated and proposed over 25 potential benefits for collectors as part of the Own to Earn project, gaining insight into new ways to drive revenue by providing more value to customers.
 - Created and managed the Twitter profile for Peninsula, a renowned Italian swimwear brand, to promote the release of their NFT collection.
- 2021 - 2022** **Rewind, Delaware, USA**
Music NFTs Marketplace
Consultant
- Conducted an analysis on cross-chain competitors' products, identifying opportunities for improvement and increasing competitiveness in the market.
 - Contributed to the design of a Social Token Launchpad, which enables artists to monetize their work directly by bypassing third-party intermediaries, promoting a new concept of ownership in the digital economy, and providing a new revenue stream for the company.
 - Explored the most suitable ways to empower the artists and their community when launching a song as an NFT, achieving a more mutually beneficial and community-driven approach to NFT launches.
-

ADDITIONAL INFORMATION

- R and Python programming languages
- Manage an NFT collection valued at a few hundred thousand dollars
- Achieved Maths, Physics, Biology and Geography Cambridge International Assessments
- Interests include Blockchain, Web3 and sports
- Took part in a 1-month life-changing volunteer experience in an orphanage in Tanzania
- Tutored in Maths and English
